## Flutter Developer

✉ syomna444@gmail.com ☎ +201003086115 📍 Giza, Egypt 🌐 syomna

🌐 Yomna Salah 🔗 Portfolio 📄 Yomna Salah

## OBJECTIVE

Experienced in mobile and web front-end development, specializing in Flutter. Skilled in crafting intuitive UIs and tackling complex challenges in collaborative environments.

## TECHNOLOGIES

### Programming languages

JavaScript, Dart

### Mobile cross-platform

Flutter

### State Management

BloC, Provider, GetX

### Database/Storage

Firebase Firestore, SQLite

### Cloud Services

Google Cloud Services (e.g., Google Maps, Google Places API)

### Version Control

Git & GitHub

## WORKING EXPERIENCE

### Mobile and Web Front-End Developer

08/2021 – present

Upwork 🔗

- Collaborated with clients to develop seamless mobile apps using Flutter.
- Enhanced app functionality with Firebase for real-time database, authentication, and cloud storage.
- Integrated APIs for data synchronization with external services.
- Developed responsive UIs for web projects using Reactjs
- Worked with backend developers and UI designers to create user-friendly mobile and web applications.

### Front End & Cross-Platform Mobile Development Trainee

2023

Information Technology Institute, ITI

- Developed expertise in React Js, Angular, React Native, Flutter, and Nodejs.
- Created seamless, responsive applications across platforms.
- Collaborated with diverse teams on real-world projects.
- Gained valuable insights into teamwork and effective communication in software development.

## PROJECTS

### My Eyes - mobile app

2024

Developed a Flutter app for vision-impaired users, using Gemini AI to describe surroundings captured by the camera. It includes text-to-speech for enhanced interaction and integrates Firebase Crashlytics and Analytics for performance monitoring.

- **Technologies:** Flutter, Provider, Gemini AI, Firebase (Crashlytics, Firebase Analytics)
- **Demo** 🔗

### Carvoive - mobile app

2024

Developed a mobile app that allows users to execute voice commands through iOS Shortcuts, leveraging Siri for seamless voice interaction. Integrated the share sheet functionality to import and add contacts directly to the user's contact list, enhancing efficiency and user experience.

- **Technologies:** Flutter, BloC, Firebase(Auth, Firestore), Speech to text
- **Demo** [↗](#)

### AKM - Al-Abdulkarim Readv Mix - mobile app

2024

Developed a powerful and user-friendly app designed for the construction industry. The app enables users to easily place orders for concrete, track real-time delivery status, and ensure the quality of received concrete.

- **Technologies:** Flutter, API integration, Firebase(Firestore, Google Analytics, FCM), Google Cloud (google places api, google maps), Localization (English, Arabic)
- **Google Play** [↗](#) **App Store** [↗](#) **Demo** [↗](#)

### Alrefaei & Aldahash Law Firm - mobile app

2024

Developed a mobile app for a law firm enabling users to request consultations from lawyers seamlessly. Implemented online payment functionality to streamline the payment process.

- **Technologies:** Flutter, API integration, Audio, Localization (English, Arabic), ClickPay payment gateway integration
- **Demo** [↗](#)

### IPark - web and mobile application

2023

ITI Graduation Project: Collaborated in a team of 5 to develop IPark, a web and mobile app revolutionizing parking solutions. Locate nearby garages, effortlessly reserve parking spots using cash or card, and conveniently track reservation history. Implemented an admin dashboard for streamlined garage approval process.

- **Front-end:** React, Material UI, Bootstrap, Redux toolkit, Firebase, Google cloud, Stripe and Localization **GitHub Repo** [↗](#) **Demo** [↗](#)
- **Back-end:** Firebase and Node Js **GitHub Repo** [↗](#)
- **Cross-platform mobile:** React Native **GitHub Repo** [↗](#) **Demo** [↗](#)

### Nanny Finder - mobile app & web version

2023

Created a seamless platform facilitating job applications for nannies and empowering families to receive, filter, and contact nanny applicants. Developed a user-friendly web version and an efficient admin dashboard for easy nanny approval.

- **Technologies:** Flutter, Flutter web, Dart, BloC, Firebase (Auth, Firestore, Storage, Dynamic Links, Hosting)
- **Google Play** [↗](#) **App Store** [↗](#) **Web Version** [↗](#)

## EDUCATION

---

### Bachelor of Commerce Accounting and Finance

2015 – 2019

Cairo University

Giza, Egypt
