OBJECTIVE

Experienced in mobile apps development, specializing in Flutter Skilled in crafting intuitive UIs and tackling complex challenges in collaborative environments.

SKILLS

Programming languages & Frameworks
Dart, Flutter, JavaScript, Reactjs, Nodejs

State Management
BloC, Provider, GetX, Redux

Database/Storage
SQLite, Hive

Cloud & Backend Services
Firebase (Firestore, Authentication, Cloud Storage, Cloud Functions, Dynamic Links, Hosting, FCM, Crashlytics, Analytics)
Google Cloud Platform (Cloud Vision API, Google Maps API, Google Places API)

Version Control
Git & GitHub

WORKING EXPERIENCE

Mobile & Web Applications Developer   08/2021 – present
Upwork 🔗
- Developed 15+ mobile applications from scratch using Flutter, delivering end-to-end solutions for diverse clients.
- Collaborated with clients to build seamless mobile apps and responsive React.js web UIs.
- Engineered app functionality via Firebase and integrated various external APIs.
- Partnered with backend developers and UI/UX designers for user-friendly mobile and web solutions.

Front End & Cross-Platform Mobile Development Trainee   03/2023 – 07/2023
Information Technology Institute, ITI
- Developed expertise in React Js, Angular, React Native, Flutter, and Nodejs.
- Created seamless, responsive applications across platforms.
- Collaborated with diverse teams on real-world projects.
- Gained valuable insights into teamwork and effective communication in software development.

PROJECTS

Penpoints - mobile app   present
An AI-powered spelling coach for children. Kids write words, upload photos, and our app uses Cloud Vision API to analyze handwriting, highlighting errors with confidence scores. Empowers parents and teachers for effective learning.
- **Technologies:** Flutter, Bloc, Firebase (Auth, Firestore, Cloud Functions), Cloud Vision API.
- **Google Play** 🔗 **AppStore** 🔗

Carvoice - mobile app
2024

A mobile app enabling voice commands through iOS Shortcuts, leveraging Siri for a seamless experience. Integrated share sheet functionality to enhance contact management.

- ***Technologies***: Flutter, BloC, Firebase (Auth, Firestore), Speech-to-Text
- ***AppStore*** 🔗 ***Demo*** 🔗

My Eyes - mobile app
2024

Developed a Flutter app for vision-impaired users, using Gemini AI to describe surroundings captured by the camera. It includes text-to-speech for enhanced interaction and integrates Firebase Crashlytics and Analytics for performance monitoring.

- ***Technologies:*** Flutter, Provider, Gemini AI, Firebase (Crashlytics, Firebase Analytics)
- ***Demo*** 🔗

AKM - Al-Abdulkarim Ready Mix - mobile app
2024

Developed a powerful and user-friendly app designed for the construction industry. The app enables users to easily place orders for concrete, track real-time delivery status, and ensure the quality of received concrete.

- ***Technologies***: Flutter, API integration, Firebase(Firestore, Google Analytics, FCM), Google Cloud (google places api, google maps), Localization (English, Arabic)
- ***Google Play*** 🔗 ***App Store*** 🔗 ***Demo*** 🔗

Nanny Finder - mobile app & web version
2023

Created a seamless platform facilitating job applications for nannies and empowering families to receive, filter, and contact nanny applicants. Developed a user-friendly web version and an efficient admin dashboard for easy nanny approval.

- ***Technologies:*** Flutter, Flutter web, Dart, BloC, Firebase (Auth, Firestore, Storage, Dynamic Links, Hosting)
- ***Google Play*** 🔗 ***App Store*** 🔗 ***Web Version*** 🔗

IPark - web and mobile application
2023

ITI Graduation Project: Collaborated in a team of 5 to develop IPark, a web and mobile app revolutionizing parking solutions. Locate nearby garages, effortlessly reserve parking spots using cash or card, and conveniently track reservation history. Implemented an admin dashboard for streamlined garage approval process.

- ***Front-end:*** React, Material UI, Bootstrap, Redux toolkit, Firebase, Google cloud, Stripe and Localization ***GitHub Repo*** 🔗 ***Demo*** 🔗
- ***Back-end:*** Firebase and Node Js ***GitHub Repo*** 🔗
- ***Cross-platform mobile:*** React Native ***GitHub Repo*** 🔗 ***Demo*** 🔗
